Call us for REAL SOLUTIONS to your lead time problems – TODAY!

In this issue:

- MAJOR ENHANCEMENT OF SNAP-IN CAPACITOR OFFERING
- WEB SITE ENHANCEMENTS
- NEW PRODUCT CATEGORIES
- NEW LITERATURE ARRIVES
- GAS DISCHARGE TUBE POPULARITY IS ON THE RISE!
- A NOTE FROM THE NSM
- VIEWING OUR WEB SITE IN OLDER INTERNET EXPLORER VERSIONS
- ONE STOP SHOPPING

Please note that when viewing our website in earlier versions of Internet Explorer, it may not load or run properly. Please update your copy of Internet Explorer for the best possible experience! See the link below to upgrade!

GAS DISCHARGE TUBES SEE RENEWED POPULARITY

Gas Discharge Tubes (GDT) are seeing a significant “resurgence” in popularity in a more diverse range of applications.

Meritek now offers 10 unique families of GDT’s, including SMD packages. This extensive array of products gives the design engineer more flexibility and a broader range of options than ever before!

When updating your TVSS designs, take a good look at these products as the GDT (typically in conjunction with other devices) provides robust capability, long life, and an excellent performance to cost ratio!

Let us know what samples you need for your next project!

Forward Thinking –
Global Solutions

NEW LITERATURE ARRIVES!

Even with advanced web sites, Google searches, etc., sometimes a “good old fashioned” catalog can be a great help! That’s why Meritek continues to publish extensive catalogs to allow our customers who want them, to utilize these tools.

Take note of the fact that these catalogs are also available for download on our web site as well!

New Catalogs just released:

Circuit Protection Devices

Commodity/Legacy Products

REST EASY KNOWING THE MERITEK TEAM IS WORKING HARD FOR YOU!

NEW PRODUCTS – 2011

- **Advanced SMD current sense resistors** (Thick film and Metal Alloy)
- **Enhanced value range Radial leaded Epoxy dipped MLCC's**
- **Expanded range of SMD Varistors** in 3220, 3225, and 4032 case sizes
- **New "Flex Coating technology** for Telephony Polymer Resettable Fuses
- **Advanced PPTC's** for battery applications
- **"Spark Gap"** technology
- **500 V rated ceramic capacitors** for "Smart Grid" applications
- **High Humidity rated Safety Caps** for Energy Management and Smart Grid needs
- **MELF SMD resistors** for space and frequency sensitive applications
- **Standard and High Power segmented film capacitors** for lighting and power supply applications.
- **Surface mount power inductors**
- **Anti-surge resistors**
- **Extensive range of new Snap-In electrolytic capacitors**

AND, more to come as the year progresses! Watch future newsletters and our Website for new products!

ONE "STOP" SHOPPING...

As many of our competitors reduce their product offerings, cut entire families of products, and limit inventories, MERITEK continues to add products and expand existing offerings!

Many of our customers have learned how easy it is to consolidate their purchases by doing most or all of their SHOPPING with us!

Continuing to expand our product ranges is one way that we are always striving to bring more value to our customer's "table".

Combine "One Stop Shopping" with excellent pricing and Short Lead Times and you can see how MERITEK can be a valuable asset in your supply chain!

"Forward Thinking, Global Solutions" is not just a slogan for us!
