ELECTRONICS CORPORATION

CIRCUIT PROTECTION AT IT'S  
BEST...

June 2010 EDITION

## MERITEK'S "LEAD TIME" SOLUTION

We are seeing some of the most explosive lead times in the history of the industry. Common passives, discretes, CIRCUIT PROTECTION DEVICES and IC's are being pushed out to 20, 30, even 40+ week lead times!

### **NOT AT MERITEK!!!**

Meritek continues to offer some of the shortest lead times in the industry. All products "fit" into our standard 8 – 14 week lead times and can be shortened even further using our low-cost air options. Also note our extensive inventory held in our California warehouse! Use it to your advantage!

Call us for REAL SOLUTIONS to your lead time problems – TODAY!

## In this issue:

- LEAD TIME "EXPANSIONS"
- BUFFER STOCKING – DESIGNED FOR YOU!
- UL 1449, REV 3.0 MOV CERT
- WEB SITE ENHANCEMENTS FOR 2010
- SUPPLIER FLEXIBILITY
- SUPPLY CHAIN SUPPORT
- A NOTE FROM THE NSM

## **BUFFER STOCKING PROGRAMS**

As lead times continue to stretch uncomfortably for many of our peers, Meritek is "Holding the line" as mentioned above.

Did you know we have some of the most aggressive buffer stocking policies in the marketplace? We WORK with each customer to define what is best, for them. We never ask you to "Fit" into our "standard plan".

Ask us about how we can further protect you from long lead times with a thoughtfully design program

CALL US TODAY FOR MORE INFORMATION!

## **SUPPLY CHAIN SUPPORT FROM THE EXPERTS AT MERITEK**

High quality, low cost components are just part of our capabilities. Meritek offers a wide array of Supply chain management and Logistics services in a menu based format. We configure options to meet your needs, not the other way around. Let us know what fits your business model!

Customization of these programs is what you get from a supplier

whose motto is **Forward**

**Thinking –  
Global Solutions**

## **UL1449, REV 3.0 CERTIFICATION COMPLETED!**

2009 was a busy year for us! Along with the development of many new products and technologies, we succeeded in completing the arduous task of full MOV line certification to UL1449's 3rd Edition standards.

Covering the full breadth of our extensive offering, this certification allows our customers to design with PEACE OF MIND knowing that the components themselves are fully certified too!

Our commitment to the industries and customers we serve is the backbone of our success. Let us show you how a REAL committed supplier can help!

Contact us for additional information, samples, and specifications!

**A note from the NSM...** WOW, WE'RE ALMOST INTO JUNE ALREADY! SUMMER FUN, PICNICS, BBQ, AND FAMILY OUTINGS. WE AT MERITEK WISH YOU ALL A FUN, EXCITING, AND SAFE SUMMER.

REST EASY KNOWING THE MERITEK TEAM IS WORKING HARD FOR YOU!

## **SUPPLIER FLEXIBILITY**

Meritek's slogan **Forward thinking, Global solutions**, involves every aspect of our business. Maintaining reasonable lead times is an important factor in our overall Supply chain support goals.

Asking customers to "Fit" into their supplier's "cookie cutter" "programs" does not offer the true flexibility that your dynamic business needs today. That's why Meritek offers so many options and "Opportunities" to our customers – every day!

From basic scheduled orders, delivered WHEN you need them, to extensive blanket orders with buffer stock and even SMI programs (tailored to fit!), Meritek's Sales Specialists can work to define a supply chain that FITS YOUR BUSINESS NEEDS - GLOBALLY.

**Call us today to see the Meritek difference...**

Thanks in advance for your own **"Forward thinking"!**

## **See our new Website**

For 2010, we are planning some exciting changes to our website. The overall design was recently updated, and new "advances" are indeed planned!

On-line cross reference, access to inventories, and other exciting changes are in the works.

Take a look at what we've accomplished so far – we think you'll like what you see!

As always, we're always open to your input. Send us your ideas!
