

### FEATURES

1. High stability, high precision and high reliability
2. High quality performance, wide selection
3. Available with various types of features, shapes, materials and dimensions

### APPLICATIONS

1. Appliances: Air Conditioner, Refrigerator, Washing Machine, Rice and Pressure Cooker, Water Cooler, Electric Fan, Electric Iron, Microwave Oven
2. Automotive
3. For temperature or signals sensing, thermometer, converter

### ELECTRICAL CHARACTERISTICS

Resistance at 25°C	1KΩ to 500KΩ
Resistance Tolerance at 25°C	±1%, ±2%, ±3%, ±5%, ±10%
B value(25/85 or 25/50)	3000K to 5000K
Tolerance of B value	±0.75%, ±1%, ±2%, ±3%
Temperature	-30°C to +125°C
